TUSCANY

One of the most beautiful regions of Italy, a place of unique historical richness, the birthplace of many areas of Italian schools of painting and architecture.

This is an amazing place of formation of ancient Apennine culture, the Etruscan civilization, the Roman Empire and the state Lombards, and the birthplace of the Renaissance. It focused a tremendous amount of unique cultural objects, so for six Tuscan cities fall into the UNESCO World Heritage List (the historical centers of Florence, Siena, San Gimignano and Pienza, the area of Pisa and the Val d'Orcia).
TUSCANY

Tuscany has an immense cultural and artistic heritage, expressed in the region's churches, palaces, art galleries, museums, villages and piazzas.

Many of these artifacts are found in the main cities, such as Florence and Siena, but also in smaller villages scattered around the region, such as San Gimignano.
